

Conformity Assessment Body (CAB) for dangerous goods packaging according to ADR/RID

Qualitech Inspection is a conformity assessment body KBS-GGU-158 accredited to ISO/IEC 17020 and designated by DETEC in accordance with Art. 15 of the Ordinance on the Placing on the Market and Market Surveillance of Containers for Dangerous Goods (GGUV, SR 930.111.4). We carry out conformity assessments (approvals) as well as initial and periodic inspections of dangerous goods packaging in accordance with the procedures specified in the ADR/RID regulations.

Task of Qualitech Inspection

The protection of people, material goods and the environment against risks that may arise from the use of technical products for the transport, storage and warehousing of dangerous goods. Qualitech Inspection stands for safety with regard to enclosures for the transport and storage of dangerous goods, including the technology used in transport and storage operations.
